

Directions: Cut out the square below. Next, cut along the dotted lines to make four triangles. Fold the tab on the long side of each triangle and glue it to your paper. Under the three word flaps, define each term.

Archaeologists have found artifacts such as arrowheads, pottery, and other tools that tell a lot about the Native Americans who lived in Virginia.

Archaeology
The study of past cultures and history through artifacts left behind by people.

Archaeologists
People who study the past cultures and history by studying artifacts and evidence left behind.

Something made and left behind from people of past cultures.

Artifacts
